

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Mark & Kathleen Streit
DOCKET NO.: 06-23198.001-R-1
PARCEL NO.: 14-05-315-020-0000

The parties of record before the Property Tax Appeal Board are Mark & Kathleen Streit, the appellants; and the Cook County Board of Review.

The subject property consists of a 103-year-old, two-story, two-unit apartment building of frame construction containing 2,109 square feet of living area and located in Lakeview Township, Cook County. The apartment property includes two bathrooms, a full basement and a two-car garage.

The appellant, Mark Streit, appeared before the PTAB and submitted evidence claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered four suggested comparable properties located within a block of the subject. These properties consist of two-story, two or three-unit apartment buildings of masonry, frame or frame and stucco construction and range in age from 102 to 113 years. The comparables include two or three bathrooms and basements. Two sites have a one or two-car garage. The comparables contain between 2,560 and 3,017 square feet of living area and have improvement assessments ranging from \$38,092 to \$43,445 or from \$13.79 to \$15.02 per square foot of living area. The appellant also claimed his land assessment was higher than that of larger buildings. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$37,920, or \$17.98 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered four suggested comparable properties located within a quarter mile of the subject. The comparables consist of two-story, two-unit buildings of frame construction. The comparables

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,874
IMPR. \$37,920
TOTAL: \$48,794

Subject only to the State multiplier as applicable.

range in age from 98 to 106 years and have full basements, one finished. They have two bathrooms and two-car garages. The comparable properties range in size from 1,920 to 2,250 square feet of living area with improvement assessments ranging from \$37,420 to \$40,807 or from \$18.14 to \$20.84 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

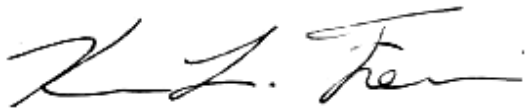

The PTAB finds the board's four comparables are very similar to the subject. The PTAB finds that the appellant's comparables are closer to the subject but lack the similarity in construction and living area found in the board's comparables. These four properties have improvement assessments ranging from \$18.14 to \$20.84 per square foot of living area. The subject's per square foot improvement assessment of \$17.98 is below this range of properties. The PTAB gives less weight to the appellant's comparables because they less similar to the subject in living area and construction and thus have less influence. As regards the land assessments, six of the comparables have land assessments similar to the subject. The remaining two land assessments are lower and higher than the subject. After considering the differences in the suggested comparables when compared to the subject property, the PTAB finds the evidence is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the PTAB finds the appellant did not adequately demonstrate that the subject apartment building was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
